

XDCi EXPRESS DEPOSIT AND CHANGE

The XDCi is a self-service solution designed to accept deposit of barcoded bags combined with the ability to dispense rolled and loose coins - and optionally notes - in exchange for account credit or high-value banknotes.

Customers no longer have to wait in line and at the branch counter or cash office or pre-order their change. All paperwork is automated and each transaction recorded in detail, identified by account ID, time stamp and barcode.

With enhanced security features, branches and customers alike can conduct transactions with minimised cash exposure.

Fully customisable, the XDCi is available as a standalone or through-the-wall solution, providing banks, CIT providers and Retailers with an automated 24/7 deposit facility that allows them to better serve their customers and staff.

APPLICATIONS

BANKING - Banks around the world have deployed the XDCi to automate and expedite cash-heavy transactions, reduce wait times for commercial customers and to migrate their change dispensing services to the self-service wall.

CIT - Cash in Transit providers installed the XDCi in shopping centers to facilitate their retail customers with their change replenishment and end-of-day deposit.

RETAIL - Retailers use the XDCi solution to automate and extend the cash office, change managing function beyond the normal office hours.

also available as

XDCi-N - ITW (NOTES)

PROCESS

1. **PREPARATION** - The user prepares a deposit bag or change inventory
2. **VERIFICATION** - The user goes to the machine and verifies their account by inserting a valid account card in the card reader or by entering their account number and sort code via touchscreen or keypad
3. **VALIDATION** - The user enters the amount of cash and cheques in the bag (optional)
4. **DEPOSIT** - The user scans the barcode and inserts the bag into the chute
5. **ACKNOWLEDGEMENT** - The machine will provide a unique acknowledgment of the transaction, recording account ID, time stamp and barcode number.

EXCHANGE - The user enters a banknote into the validator, then selects the change required by denomination

DISPENSE of rolled and loose coins

BENEFITS

- **OFFER A QUICK AND SMOOTH EXPERIENCE TO YOUR CUSTOMERS**
An average deposit transaction only takes less than a minute to complete and it's completely paperwork-free
- **AUTOMATION OF CASH AND ADMIN HEAVY TRANSACTIONS**
With all cash-heavy transaction migrated to the self-service walls, staff can be redirected to customer service and consultative roles
- **CONVENIENT AND SECURE CHANGE DISPENSING**
The XDCi allows to provide commercial customers with a quick and convenient combination of cash exchange and express deposit services
- **TRANSACTION COST IS MINIMISED**
With a small footprint, swift operation and minimal maintenance required, the CEM solution allows to significantly reduce your operational costs.
